

Specializing in Advanced Battery & Electrical Diagnostics

The BT2000 is an advanced diagnostic tool that is accurate, fast and affordable. The tester is designed for use on START-STOP battery systems with the added value of testing traditional automotive batteries and electrical systems.

- **Easy-to-Read Intuitive Interface**
- **Complete Test Report & Fully Customizable Printout**
- **Advanced HTML Interface to Fully Utilize Test Data**
- **Enhanced Flooded Battery (EFB) & AGM Test Availability**
- **Detachable Cable for Easy Maintenance**
- **12 month limited warranty**

Each BT2000 kit includes the following items:

Printing Paper

AA Batteries

Software

USB Cable

Hard Case

BT2000 Specifications:

Test Range:	CCA: 40-3000
Application:	6V & 12V Batteries 12V & 24V Electrical Systems
Voltage Range:	1.5Vdc - 60Vdc
Cable Length:	5.9 Feet / 180CM
Vehicle Types:	Automotive START-STOP
Battery Types:	Regular Flooded AGM Flat Plate AGM Spiral Gel Enhanced Flooded AGM (START-STOP)
Operating Temp:	0°C to 50°C (32 F to 122 F)
